

## Awareness Programme on Animation and Graphics on May 11, 2026 at 9:30 am

**Name of the School: MIT World School, Moradabad**

**No. of Students participated: 115**

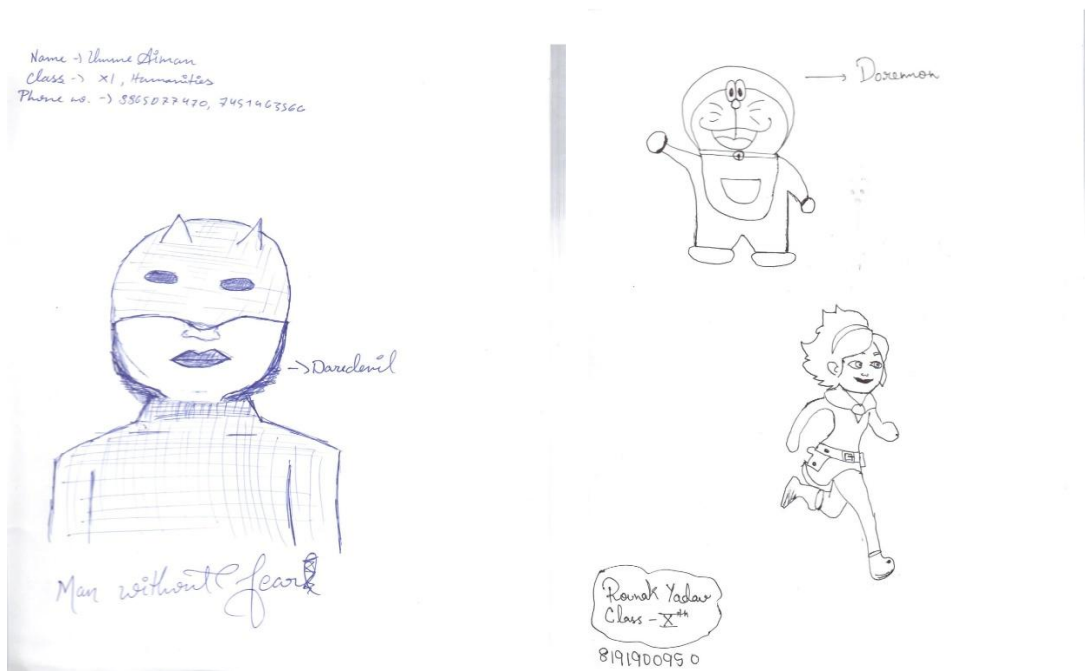

The Awareness Workshop on Animation and Graphics was organised by RAA Moradabad with the objective of creating awareness among students about the fields of Animation, Graphics, and VFX. The session commenced with the opening remarks by the Principal of MIT World School Moradabad, followed by an introduction to the workshop theme by the Vice-President of RAA Moradabad.

A detailed presentation was subsequently delivered by Manish Bhatnagar, highlighting the importance of drawing and the fundamentals of animation. To demonstrate the impact of VFX in modern cinema, breakdowns from films and series such as The Matrix, RRR, Jujutsu Kaisen, and Black Widow were showcased, explaining how visual effects enhance action sequences and storytelling.

The students were also introduced to the global significance of the Animation and VFX industry, particularly its contribution to the economies of countries like Japan and the United States. An interactive drawing exercise was conducted during the session, where students enthusiastically created sketches of their favourite cartoon characters.

The workshop concluded with an insightful address by the Director of RAA Moradabad, who shared key statistics related to revenue generation in the AVGC sector and highlighted the wide range of lucrative career opportunities available in the industry.

The workshop concluded with a creative showcase of student artworks, a few of which are featured below.
